

# WE ARE HERE TO HELP

In an effort to help those in our community who are afraid to leave their homes during this uncertain time, volunteers have arranged **Porter County Covid Help**.

This service is free of delivery/service charges to assist those with grocery shopping, prescription pickup, and general errands.

Those in need can leave a message at **219-940-3218** or email **pccovidhelp@gmail.com** with their name, phone number, and brief description of need and a volunteer will contact them within 24 hours.

\*Volunteers that will be helping with shopping will need to be reimbursed when goods are dropped off with receipts.
